

Yi Jin LIEW

yijin.liew@kaust.edu.sa

EDUCATION

- PhD **Trinity Hall, University of Cambridge, UK (Oct 2008–Dec 2012)**
PI: Dr. Gos Micklem, Department of Genetics
Thesis title: Small RNA studies in *Drosophila melanogaster*, *Stylophora pistillata* and *Symbiodinium* sp.
- BA **Magdalene College, University of Cambridge, UK (Oct 2005–Jun 2008)**
First-Class Honours in Genetics

POSTGRADUATE TRAINING & PAST APPOINTMENTS

- 2013 – **Postdoctoral Fellow in King Abdullah University of Science and**
2018 **Technology, Saudi Arabia (5 years)**
PI: Prof. Manuel Aranda, Red Sea Research Center
- Investigated the role of epigenetics in corals as a mechanism to keep pace with climate change
 - Contributed to genome projects of five marine organisms
 - Created and maintained an online data portal for reef organisms, <http://reefgenomics.org>
 - Reviewed six papers
 - Provided academic guidance for five PhD students, two master's students, two interns, and two high school students
 - Co-chaired organising committee of departmental conference
 - Co-organised and taught in a week-long "Stats in R" course for departmental members
- 2009– **Lab demonstrator, University of Cambridge, UK (various stints)**
2011
 - Demonstrated general lab skills to first- to third-year undergraduates, and graded lab reports
- 2005 **Relief teacher, The Chinese High School, Singapore (5 months)**
- Taught Chemistry to gifted students aged 13–15
 - Designed course materials and exams, graded student work

ORAL PRESENTATIONS AT CONFERENCES

- 2017 European Coral Reef Symposium 2017, Oxford, UK
RSRC Open Science Conference, Thuwal, KSA
KAUST Research Conference: Environmental Epigenetics, Thuwal, KSA
- 2016 KAUST Research Conference: International Conference on the Marine Environment of the Red Sea, Thuwal, KSA
13th International Coral Reef Symposium, Honolulu, Hawaii, USA

- 2014 3rd Asia-Pacific Coral Reef Symposium, Kenting, Taiwan
- 2012 12th International Coral Reef Symposium, Cairns, Australia

AWARDS AND PRIZES

- 2008 Special Malaysia University Composition Fee Bursary (£24,000 p.a. × 3 years)
Trinity Hall Research Bursary (£4,000 p.a. × 3 years)
Bundy Scholarship (£250)
College Prize for Natural Sciences (£115)
- 2007 Gold award and Best BioBrick award for "BOL: Bacteria OnLine" (International Genetically Engineered Machines Competition, MIT)
- 2006 Scholarship from College Governing Body
College Prize for Natural Sciences
- 2005 Jardine Scholarship (£30,000 p.a. × 3 years)
Honorary Cambridge Commonwealth Trust Scholarship

OUTREACH ACTIVITIES

- 2018 Co-organised and taught in a "Stats in R" course for departmental members
Co-author on paper picked up by the BBC (<http://www.bbc.com/news/science-environment-43801895>)
- 2017 Co-chaired a two-day departmental seminar "RSRC Open Science Conference 2017"
Interviewed for published work about RNA editing in an alga
(<https://discovery.kaust.edu.sa/en/article/345/tweaking-the-transcriptome-to-tackle-stress>)
- 2016 Interviewed by KAUST about why I chose to work there
(<https://www.kaust.edu.sa/en/news/a-place-for-big-ideas>)
Maintained lab website (<https://coralsymbiomics.kaust.edu.sa>)
- 2015 Co-wrote an opinion piece on corals' epigenetic adaptation to climate change
(<http://www.natureasia.com/en/nmiddleeast/article/10.1038/nmiddleeast.2015.194>)

POSTGRAD & UNDERGRAD SUPERVISION

PhD students: **five**. My advice ranges from

- Bioinformatics basics e.g. using the UNIX command-line; how to write scripts in Python to analyse data etc.
- Statistical concepts e.g. what tests to carry out if the data is not Gaussian; how to propagate standard errors; why multiple testing correction is important etc.

- Good lab practices, especially when working with RNA e.g. ensuring bench is RNase-free; work quickly on ice to prevent RNA degradation; avoid freeze-thawing of samples etc.
- Scientific writing e.g. when to use past or present tense; how to structure their ideas etc. I have read through and edited the PhD proposals from all five students; and multiple manuscripts from three.

Master's/undergrad/high school students: **six**. Guidance provided is similar in theme as PhD students, but in a more directed fashion. Examples include

- Performing initial experiments with them
- Outlining how data analysis should proceed
- Editing their written reports and improving their presentations
